MARTIN MX

BEFORE LAUNCH

GO-LIVE TEST CHECKLIST.

Walk through every part of the site once before it goes live. About 45 minutes. Check each box as you go and note anything that looks wrong.

martinmxpark.com · Owner dashboard: martinmxpark.com/admin
Prepared by Unyx Web Solutions · October 2026

BEFORE YOU START

- Use **your phone** for most steps; that's how you'll run the park.
- Your web team will send you the **test link** for the new site. Payments on the test site are pretend. Pay with card **4242 4242 4242 4242**, any future expiry date, any 3-digit code and any ZIP. No money moves.
- Have your Gmail open: several steps send you an email.
- Write down anything that's wrong or confusing next to the step and send it to luke@unyxwebsolutions.com.

A. SIGN IN

- [ ] Open the dashboard link and sign in with your email and temporary password.
  You should see: the Today screen.

- [ ] Tap “Change it” on the yellow bar and set your own password. Sign out, then sign back in with it.
  You should see: you're signed in, and the yellow bar is gone.

- [ ] Add the dashboard to your phone's home screen (Owner Guide, chapter 2).
  You should see: a Martin MX icon on your home screen.

B. CHECK YOUR INFORMATION

- [ ] More → Prices, spots & hours: check main, junior and spectator prices, spots per class, regular hours and the membership price.
  You should see: everything matches what you charge today.

- [ ] More → Contact & links: check phone, email, address, Facebook, Instagram and store link.
  You should see: all correct. The email is one you check.

- [ ] Open the public site's Track Info page and read it top to bottom.
  You should see: rules, gear and minor policies are right. Fix anything in More → Track info & rules.

- [ ] On Track Info, download each waiver.
  You should see: the correct, current PDFs.

- [ ] Open Sponsors and Gallery on the public site.
  You should see: the right sponsors and photos.

C. SCHEDULE

- [ ] Schedule → check upcoming ride days and times.
  You should see: the days you plan to open.

- [ ] Add a test ride day for next week, named “TEST”.
  You should see: it appears in the dashboard and on the public Schedule page.

D. REGISTRATION AND PAYMENT (ON THE TEST SITE)

- [ ] On the TEST day, switch on Online registration.
  You should see: on the public site, Register shows the TEST day.

- [ ] On your phone, register a pretend rider: pick the TEST day, a class, fill in details (use your own email), tick the waiver box, Continue to payment.
  You should see: the Stripe payment page with the right class and price.

- [ ] Pay with 4242 4242 4242 4242.
  You should see: “You're on the gate list” and a confirmation email in your inbox.

- [ ] Open Today (or Riders → the TEST day).
  You should see: your pretend rider in the right class, and totals updated.

- [ ] Start a second registration but tap the back arrow on the payment page instead of paying.
  You should see: you're back on the form, and no rider was added.

- [ ] Today → switch off Practice registration on the site, then refresh the public site.
  You should see: no Register buttons anywhere, the Register page says practice registration is closed, and Membership still works.

- [ ] Switch Practice registration on the site back on.
  You should see: Register buttons are back.

E. GATE AND PRINTING

- [ ] Search for the pretend rider and tap them.
  You should see: the green check. Tap again to undo.

- [ ] Riders → TEST day → Print (from a computer).
  You should see: a clean sheet grouped by class.

F. CANCELLING

- [ ] Cancel the TEST day with the reason “Test”, leaving “Email the riders” checked.
  You should see: a cancellation email to you, and the day shows cancelled with “Test” on the public Schedule.

- [ ] Tap Turn back on.
  You should see: the day is back to normal on the site.

G. REFUND (TEST SITE)

- [ ] With your web team, refund the pretend payment in Stripe's test mode.
  You should see: the rider disappears from the TEST day list.

H. EDITING THE SITE

- [ ] More → Announcement banner: turn it on with “Test banner”, save.
  You should see: the banner across the top of the public site.

- [ ] Turn the banner off and save.
  You should see: it's gone.

- [ ] More → Gallery → Add photos: upload one photo from your phone, star it, save.
  You should see: it shows in the home page photo strip and on the Gallery page.

- [ ] Delete that photo and save.
  You should see: it's gone from both.

- [ ] Change one word on the home page (More → Home page), save, check the site, then change it back.
  You should see: the change appears, then reverts.

I. FORMS AND INBOX

- [ ] On the public site, submit a test job application on Work With Us.
  You should see: an email to you, a receipt email, and the application in More → Inbox.

- [ ] Submit a test message on Contact.
  You should see: an email to you and the message in the Inbox under Messages.

- [ ] Archive both.
  You should see: they move to Archived.

J. TEAM

- [ ] Add anyone else who needs access (More → Team) and send them their login.
  You should see: they can sign in.

K. CLEAN UP

- [ ] Delete the TEST ride day (if it won't delete because of the pretend rider, cancel it; your web team will clear test data before launch).
  You should see: it's no longer on the schedule.
