18 Getting help

HOW TO USE THIS GUIDE

You don't need to read it all at once. Skim chapters 1 to 4 before your first ride day; the rest is here when you need it. Every screen shown is the real dashboard on a phone.

01 WELCOME TO YOUR NEW SITE

The new site does a lot of the work that used to happen by hand, and you control all of it from a dashboard that works on your phone.

WHAT RIDERS GET

- **Live track status** on the home page: open now, later today, cancelled (with your reason), or the next ride day, plus the forecast.
- **Online registration** for the days you open, paid by card through Stripe. Spots are held while they pay, so a class can never be oversold.
- **Instant confirmation emails** with their details, waiver links and what to bring.
- **Track info, waivers, the schedule, gallery and sponsors**, all kept current by you.

WHAT YOU GET

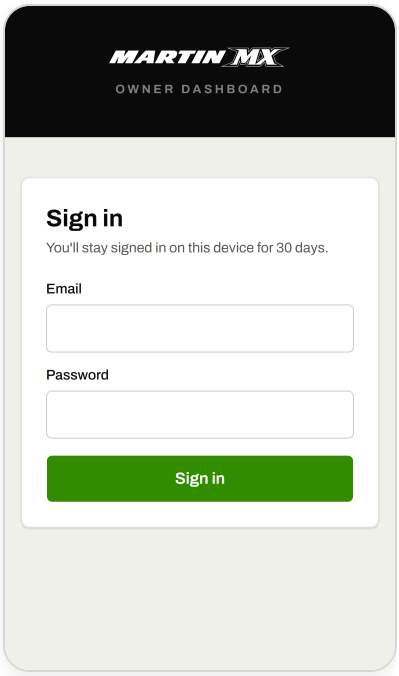

- **One dashboard** at **martinmxpark.com/admin**: today's riders, check-in at the gate, cancelling, the schedule, and every word and photo on the site.
- **Payments are recorded automatically.** Nobody has to type riders into a list; paid riders simply appear.
- **Job applications and messages** land in your inbox and your email.

> **NOTHING TO INSTALL**
> The dashboard is a website, not an app. Add it to your home screen (chapter 2) and it opens like one.

02 SIGNING IN

1. Go to **martinmxpark.com/admin** on your phone or computer.
2. Enter your email and password, then tap **Sign in**.
3. If you see a yellow bar saying you're on a **temporary password**, tap **Change it** and pick your own (at least 10 characters; a few random words works well).

You stay signed in on that device for **30 days**. Use the **Sign out** icon (top right on phones) on shared computers.

The sign-in screen

PUT IT ON YOUR HOME SCREEN

iPhone: open martinmxpark.com/admin in Safari, tap the Share button, then **Add to Home Screen**.
Android: open it in Chrome, tap the ⋮ menu, then **Add to Home screen**.

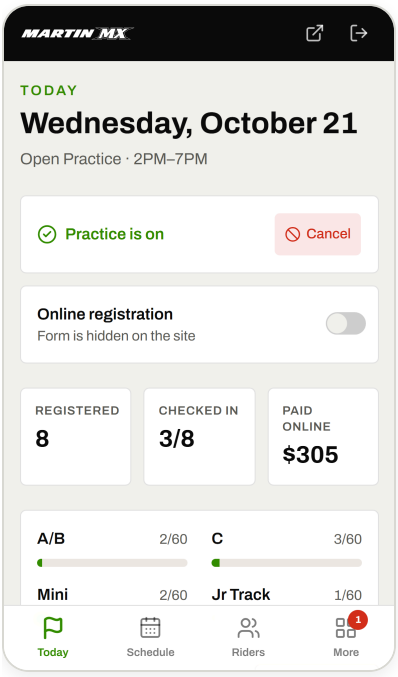

> **LOCKED OUT?**
> After 5 wrong passwords in a row the account locks for 15 minutes. Any other owner can give you a new temporary password from the Team screen (chapter 14).

GETTING AROUND

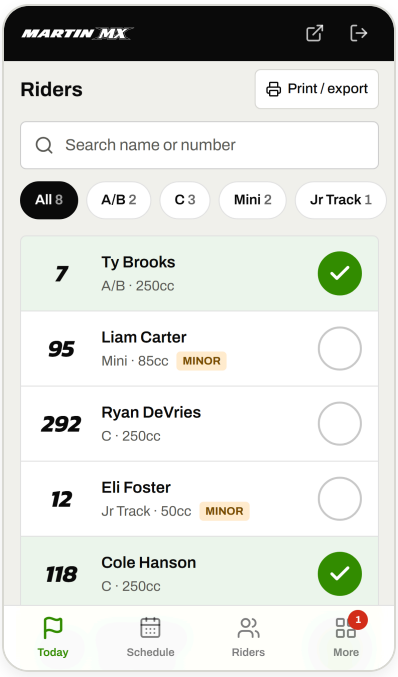

On a phone, the tabs along the bottom are: **Today** (the current or next ride day), **Schedule**, **Riders**, and **More** (everything else: editing the site, inbox, team, settings and these guides). On a computer the same items are in the black sidebar.

03 THE TODAY SCREEN

The screen you'll use most. It always shows today's ride day, or the next one if there's nothing today.

Today: status, switches and totals

The gate list

THE TWO SWITCHES

- **Practice is on / Cancel**: see chapter 4.
- **Online registration**: turn it on and riders can sign up and pay for this day on the website. Turn it off and the form disappears. Sign-ups for a day also stop on their own once that day's riding ends.

TOTALS AND SPOTS

Registered is paid riders, **Checked in** counts as you tap people in, and **Paid online** is what came in through the site for this day. Below that, each class shows spots used (for example 23/60). "Paying now" means someone is at the payment screen holding a spot.

CHECKING RIDERS IN AT THE GATE

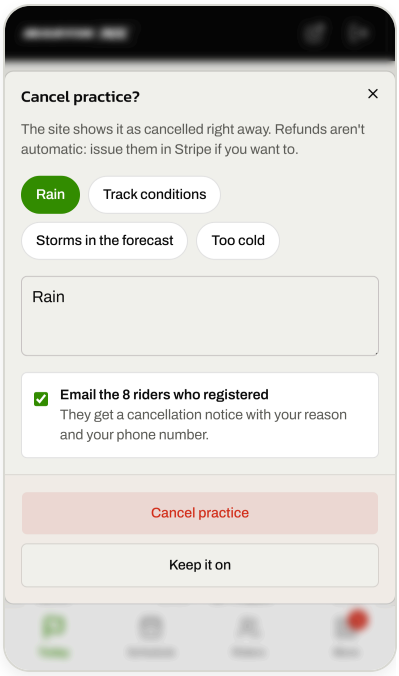

1. Type a name or rider number into the search box, or tap a class to filter.
2. **Tap the rider** to check them in. The circle turns green. Tap again to undo.
3. A yellow **MINOR** tag means they're under 18: make sure a parent or a notarized guardian release is there.

> ### WALK-UPS
>
> Riders who pay cash at the gate aren't in this list; it only shows online registrations. Keep handling walk-ups the way you do today.

04 CANCELLING PRACTICE

1. On **Today** (or on the day in **Schedule**), tap **Cancel**.
2. Tap a quick reason (Rain, Track conditions…) or type your own. Riders see this on the website.
3. If riders have registered, leave **Email the riders who registered** checked to send each of them a cancellation notice with your reason and phone number.
4. Tap **Cancel practice**.

The website updates **immediately**: the home page status turns red, the schedule shows the day crossed out with your reason, and online registration for that day closes.

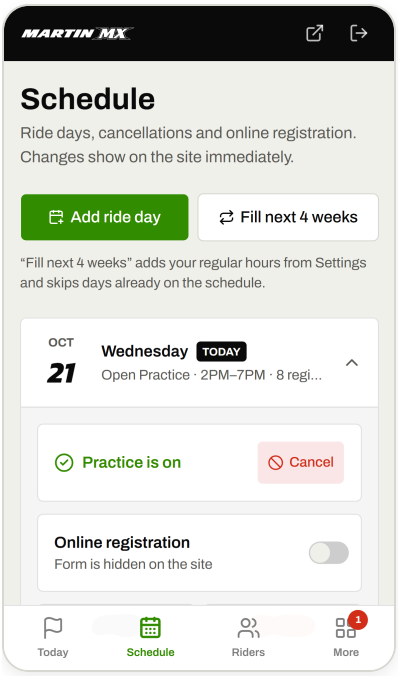

Cancelling with a reason

CHANGED YOUR MIND?

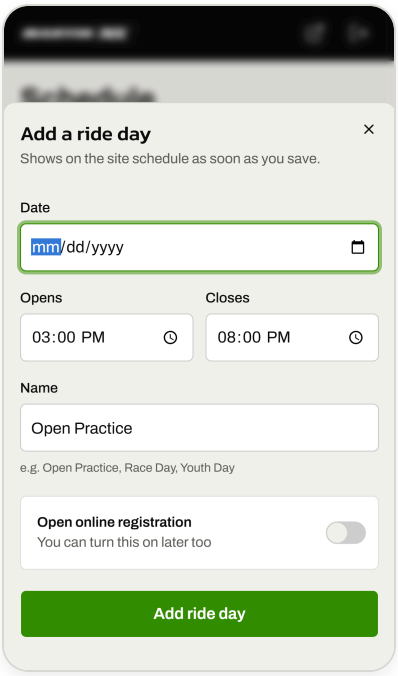

Tap **Turn back on**. The day goes back to normal on the site. (Riders who were emailed aren't sent a second email, so give them a call or post on Facebook.)

> **REFUNDS ARE NOT AUTOMATIC**
>
> Cancelling doesn't refund anyone. If you want to refund riders, do it in Stripe (chapter 7). A full refund removes the rider from your list automatically.

05 THE SCHEDULE

The schedule

Adding a ride day

ADD A SINGLE DAY

1. Tap **Add ride day**.
2. Pick the date and the open and close times, and name it (Open Practice, Race Day, Youth Day...).
3. Optionally switch on online registration now, then tap **Add ride day**.

FILL IN YOUR REGULAR WEEKS

Fill next 4 weeks adds a ride day for each of your regular days (set in **Prices, spots & hours**) for the next four weeks, skipping any date already on the schedule. Run it once a month during the season.

CHANGE OR REMOVE A DAY

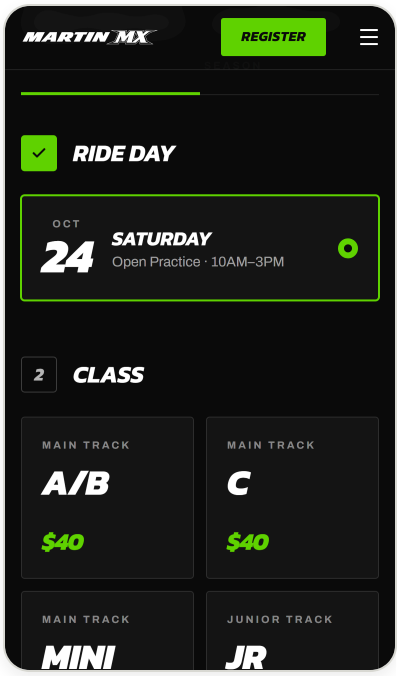

Tap a day to open it. From there you can cancel it, switch registration on or off, **Edit** the times or name, or **Delete** it.

> ### DELETE VS. CANCEL
>
> Delete a day only if nobody has registered: it disappears from the site. If riders have paid, the site won't let you delete it or change its date. Cancel it instead, so riders can see what happened.

06 ONLINE REGISTRATION & PAYMENTS

WHAT RIDERS DO

1. On the website they tap **Register**. Only days with online registration switched on appear.
2. They pick the day and class, enter the rider's details, and tick the waiver acknowledgment.
3. They pay on a secure Stripe page (card, Apple Pay, Google Pay and so on).
4. They land on a confirmation page and get a confirmation email. They show up on your **Today** list right away.

What riders see on the website

SPOTS

Each class has a set number of spots per day (chapter 15). A spot is **held for 30 minutes** while someone is paying; if they give up, it frees up again. When a class fills, it shows as Full and can't be picked. That's why a class can never be oversold, even if lots of people register at once.

WHERE THE MONEY GOES

Payments go to **Martin MX's own Stripe account** and are paid out to your bank on your normal Stripe schedule. To see them, open the Stripe app or dashboard.stripe.com. Each payment is labeled with the date, class and rider name.

> **PRICES**
> Riders always pay the prices in your Settings at the moment they register. Changing a price doesn't change what earlier riders paid.

07 REFUNDS

Refunds are done in Stripe, and the site keeps up on its own.

1. Open the **Stripe app** or **dashboard.stripe.com** and make sure you're in the **Martin MX** account.
2. Go to **Payments** and search for the rider's name or email.
3. Open the payment and tap **Refund**. Choose the full amount and confirm.

For a **full refund**, the site automatically removes the rider from your gate list and frees their spot within a few seconds. A **partial refund** keeps them registered.

> ***STRIPE FEES***
> Stripe keeps its processing fee on refunded payments. That's standard for card processing, not something the website controls.

08 MEMBERSHIPS

1. Riders buy a yearly membership from **Register → Membership** on the site. Stripe collects their mailing address and phone.
2. You get a **"New member"** email with their name, email, phone and mailing address. **Mail them their membership card.**
3. They get a welcome email saying the card is on its way.

Turn membership sales on or off, change the price, and edit "what's included" in **More → Prices, spots & hours**. Every membership is also in Stripe under Payments.

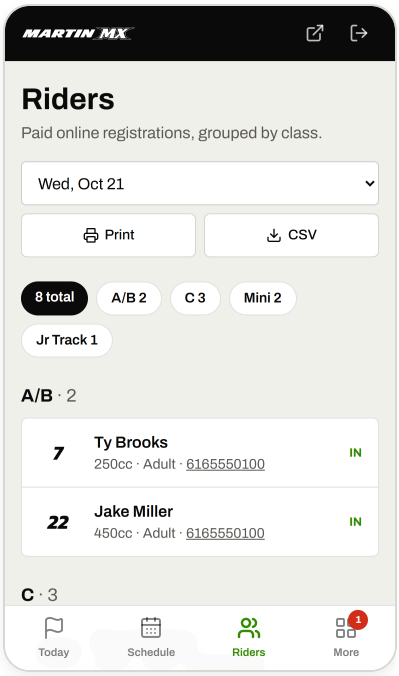

> ***KEEP THE EMAILS***
> Make a Gmail label for “New member” emails. It becomes your list of who has paid and who still needs a card.

09 RIDER LISTS, PRINTING & EXPORT

The **Riders** tab shows paid riders for any ride day, grouped by class. Pick the day from the drop-down.

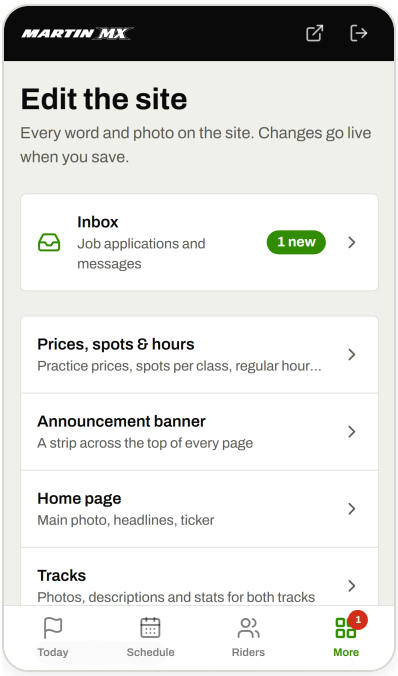

- **Print** makes a clean gate sheet: each class on its own table with rider number, name, bike size, age group, phone and a check-in box. Best printed from a computer.
- **CSV** downloads a spreadsheet of the day (opens in Excel or Google Sheets).
- On a phone, tap a rider's phone number to call them.

> ***PRINTER TROUBLE AT THE GATE?***
> Print the sheet the night before as a backup. If your cell signal drops at the gate, work from the printed list.

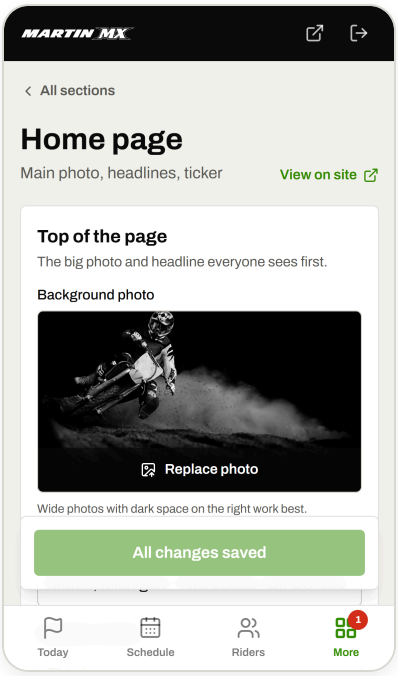

Riders grouped by class

10 EDITING THE WEBSITE

More: everything you can edit

Editing the home page

Open **More** and pick what to change. Every section works the same way:

1. Change the text or photos.
2. Tap the green **Save changes** bar at the bottom. It turns to “All changes saved”.
3. Tap **View on site** to check it. Changes are live immediately.

If you try to leave with unsaved changes, your phone will warn you first.

> ***THE EMAIL IN CONTACT & LINKS MATTERS***
> It's where rider replies, new-member notices and job applications are sent. Keep it an inbox you check.

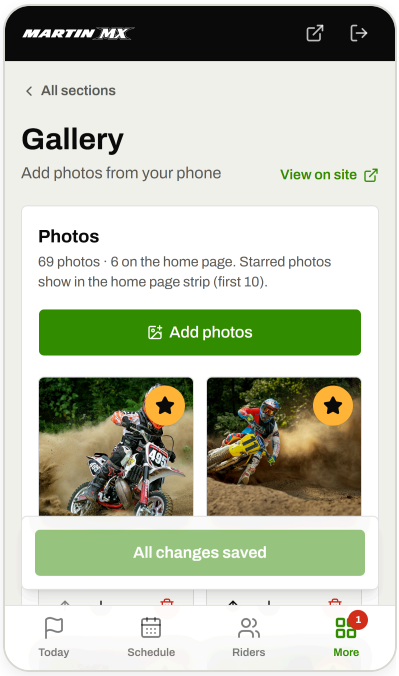

SECTION	WHAT IT CONTROLS
Prices, spots & hours	Practice prices, spots per class, regular hours, membership price and perks
Announcement banner	A strip across the top of every page (chapter 12)
Home page	Main photo, headline, scrolling ticker, section headlines, “find us” note
Tracks	Photos, names, taglines, three stats and descriptions for both tracks
Track info & rules	Intro, required gear, minor-rider rules, house rules, special events, concessions
Waivers	The PDFs riders download (upload a new PDF to replace one)
Gallery / Sponsors	Photos and logos (chapter 11)

Hiring / Contact page	Whether you're taking applications, positions, availability, intros
Contact & links	Phone, email, address, Facebook, Instagram, merch store. Used everywhere on the site and in emails

11 PHOTOS: GALLERY & SPONSORS

GALLERY

1. More → **Gallery** → **Add photos**. Pick one or many photos from your camera roll.
2. They upload one at a time (they're shrunk on your phone first, so it's quick even on cell signal).
3. Tap the **star** on a photo to show it in the home page photo strip (the first 10 starred show there). Every photo appears on the Gallery page.
4. Optionally type a short description under each photo (helps Google and screen readers).
5. Use the arrows to reorder and the trash can to delete, then **Save changes**.

Gallery: star = on the home page

SPONSORS

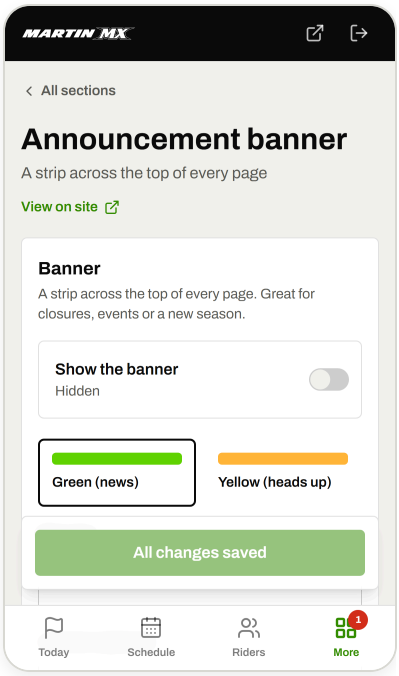

More → **Sponsors**: upload a logo, add their name and website or Facebook link, and choose **Show on site**. Turn on **Title sponsor** to give someone the big spot. A PNG logo with a transparent background looks best.

12 THE ANNOUNCEMENT BANNER

Use the banner for anything riders need to see right away: “Closed this weekend for track work”, “Race day Saturday: practice cancelled”, “Season opens April 5”.

1. More → **Announcement banner**.
2. Switch on **Show the banner**, pick **Green** (news) or **Yellow** (heads up) and type the message.
3. Optionally add a link, for example **/schedule**.
4. **Save changes**. It shows on every page right away.

> ***REMEMBER TO TURN IT OFF***
> Banners stay up until you switch them off.

The announcement editor

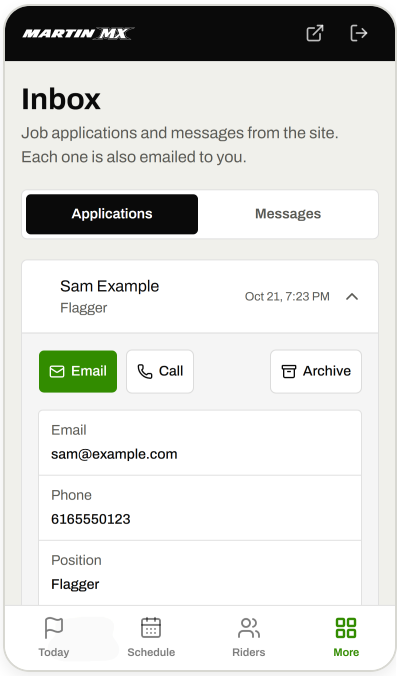

13 INBOX: APPLICATIONS & MESSAGES

Job applications from **Work With Us** and messages from **Contact** arrive two ways: as an **email to you**, and in the dashboard **Inbox** (More → Inbox). A red badge on the More tab shows how many are new.

- Tap one to read everything they entered.
- **Email** or **Call** them in one tap, or simply **reply to the email** you received: it goes straight to them.
- **Archive** when you're done. Archived items are kept under “Archived”.

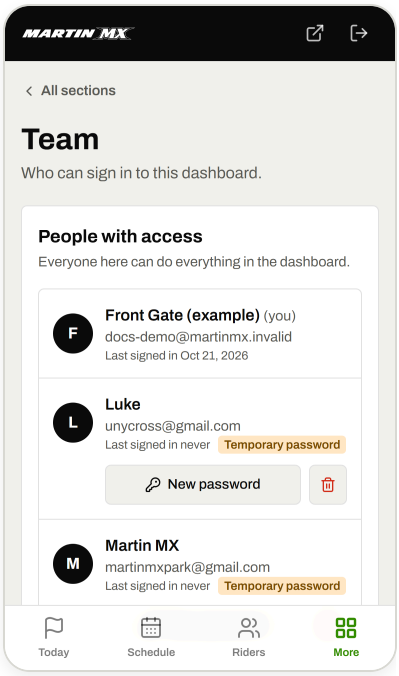

To stop taking applications, go to More → **Hiring** and switch off **Taking applications**. You can also edit the positions and availability choices there.

> ***SPAM***
> The forms quietly block most bots, so what reaches you should be real people.

Reading an application

14 TEAM: WHO CAN SIGN IN

Team

ADD SOMEONE

1. More → **Team**. Under **Add someone**, enter their name and email, then tap **Add person**.
2. A **temporary password** appears **once**. Tap **Copy login details** or **Email it to them**.
3. They sign in at martinmxpark.com/admin and the site asks them to pick their own password.

FORGOT THEIR PASSWORD?

Tap **New password** next to their name and share the new temporary password.

REMOVE SOMEONE

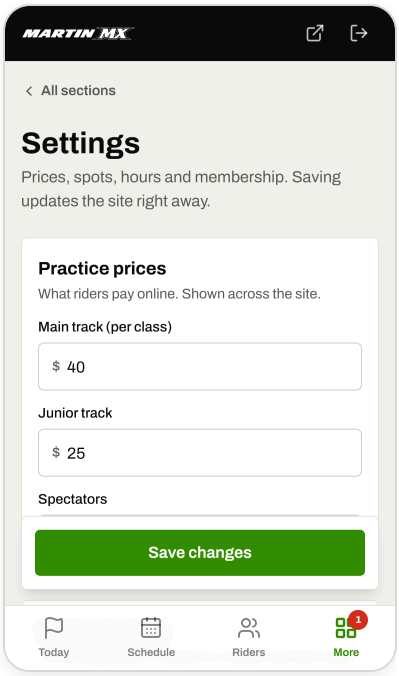

Tap the trash can. They lose access right away on every device. You can't remove yourself, and there's always at least one login.

> **EVERYONE IS A FULL OWNER**
> Anyone on the Team can do everything, including cancelling days and adding people. Only add people you trust.

15 PRICES, SPOTS & HOURS

- **Practice prices**: main track (per class), junior track, spectators.
- **Spots per class**: how many riders can register online per class per day.
- **Regular hours**: shown on the site and used by “Fill next 4 weeks”. Seasonal change (like earlier fall hours)? Update them here.
- **Yearly membership**: on sale or not, price, and what's included.

Your own password is at the bottom of this screen.

Prices, spots & hours

16 EMAILS THE SITE SENDS

All emails come from **no-reply@martinmxpark.com**. When someone replies, the reply goes to the email in **Contact & links**.

EMAIL	SENT TO	WHEN
Registration confirmed	Rider	Right after they pay. Includes their details, waiver link and what to bring.
Practice cancelled	Registered riders	When you cancel a day and leave “Email the riders” checked.
Membership welcome	New member	Right after they pay.
New member	**You**	With their mailing address, so you can mail the card.
New job application / message	**You**	Each time someone submits a form. Reply to answer them.
We got your application / message	The person who submitted	A short receipt.

NOT SEEING EMAILS?

Check your Gmail spam and Promotions tabs the first time, and mark them “Not spam”.

17 TROUBLESHOOTING & FAQ

PROBLEM	WHAT TO DO
I can't sign in	Check the email address. After 5 wrong tries, wait 15 minutes. Another owner can issue a new temporary password from Team. Otherwise contact us.
The site still shows old info	Pull down to refresh, or close and reopen the page. Saved changes are live immediately.
A rider says they paid but isn't on the list	Search Stripe → Payments for their name or email. If there's no payment there, it didn't go through. If there is one, contact us with their name and the time.
Registration isn't showing on the website	Online registration must be switched on for that day, the day can't be cancelled, and it closes when the day ends.
A class shows Full but the gate isn't	Raise **Spots per class** in Settings. Spots held by someone mid-payment free up after 30 minutes.
A photo won't upload	Try Wi-Fi, or pick a regular photo instead of a Live Photo or screenshot. Very large files may need a second try.
I refunded someone and they're still on the list	Only full refunds remove riders. A partial refund keeps them registered.
I deleted something by mistake	Contact us. Most changes can be put back.

18 GETTING HELP

Your site was built by Unyx Web Solutions, and we look after it.

Email: luke@unyxwebsolutions.com
Website: unyxwebsolutions.com

When you write, it helps to include what you were doing, the page or screen, and a screenshot if you can.

> ***GOOD TO KNOW***
> The site, the database and photo storage run on Amazon Web Services; payments run on your own Stripe account. Rider and payment information is only visible to people on your Team and in your Stripe account.
